

Case Study : SAP End-User Training at Suzlon Energy Ltd.

Suzlon develops and manufactures technologically advanced, high-performance and cost-efficient wind turbines, to meet the diverse needs of customers all around the world.

In 2006 Suzlon was recognized for the best sector implementation of SAP Enterprise Resource Planning software, and the company received recognition for excellence in project management at the ENPower Awards.

Amplify was selected to be the Consulting & Training partner of Suzlon for various SAP - End user trainings, all across their sites and offices in India (including Pune, Baroda and Chennai).

SAP - End User Trainings	
Functional Modules	No of Batches
Materials Management	7
Production Planning	1
Financial Accounting	7
Plant Maintenance	2
Quality Management	2
Sales & Distribution	1
Human Resource	2
Customer Service	1
Project Systems	3

Post-training, within the first six months of operations, the number of mistakes committed by SAP End users at Suzlon reduced by 50%. The training costs for Suzlon were brought down to approximately 30% of original estimates.
